Teresa Pisarska-Markiewicz M.Sc. (1952-2017)

Teresa Pisarska-Markiewicz M.Sc. (1952 - 2017) completed a science degree at Warsaw University of Technology in the Faculty of Chemistry in 1977. She was always sketching, drawing and painting as a hobby during her work at the Research Institute in Piastow. In 1991 she became a professional artist, receiving official recognition from the Polish Ministry of Culture.

Teresa specialised in still life painting using many mediums. Her larger works are typically oil on canvas, however, there is also a collection of miniature watercolours and pastels available. Teresa had also produced a few lithographs, each decorated with lucky four leaf clovers.

Most of her still life work was based on her own gardening achievements as she loved her garden as well as creating art.

20% of all sales will be donated to **The Barbara Pisarska Trust**. Spurred on by Linda 2002
