

## George Yard Shopping Centre sponsors Braintree Open Art Exhibition 2010

George Yard Shopping Centre is pleased to confirm that they will again sponsor the Braintree Open Art Exhibition for 2010, a part of the F7Festival. The Exhibition has been held annually for many years, and this year Braintree District Arts (who are responsible for the Exhibition) is excited to be one of the first users of the new Gallery in Braintree District Museum.

The exhibition will be open from Saturday 24th July to 7th August with a Late Night on 5th August in the town centre Museum.

Four prizes will be awarded to artists who can submit up to three pieces of work. The prizes are provided by Braintree District Arts, the Braintree Community Art Group, the Braintree Chamber of Trade & Commerce and the Smith Law Partnership.

Over 80 pieces of artwork were entered into last years exhibition and over 50 pictures were hung, after the Royal Academy-style selection process.

Artists will be able to deposit their artworks on July 20th at the Museum. The Private View will be held on Friday 23, when the prize winners will be announced.

Further information and application forms are available on [www.f7festival.co.uk](http://www.f7festival.co.uk).

# Your Monthly Horoscope by Philip Garcia

**Aries (Mar21/Apr20)** Your partner's starting to feel neglected. You may have had so much on you've not been giving them much attention. This July try to put time aside to concentrate on what pleases them the most. In bending over backwards to make others happy, they're more likely to accept you haven't deliberately tried to upset them. You will feel more loving, passionate and generous now and all because of a new romance or developments in an existing union.

**Taurus (Apr21/May21)** Try to relax more if life has been hectic and demanding. Isn't it about time you made romance and relationships a priority? Compliments are flying when you get involved in a group sports event or fun endeavour. As others heap praise and compliments on your head your face can't help but turn red with embarrassment and pleasure. Single? You will be approached by someone with a sensitive smile; this is a secret you want to keep to yourself.

**Gemini (May22/June21)** There's no need to travel any great distance to find pleasure this month. Some pleasant surprises are in store and many of these will occur close to home. Your partner's playfulness will delight you and it's not hard to imagine you staying together forever when you feel this way. If you are single, a new romance doesn't hold a lot of promise but the moments you spend together are fun. You will accept not every relationship is meant to last.

**Cancer (June22/July23)** If you are attached, expect to enjoy a harmonious time with your partner and family. You've always loved children and if you can arrange it to spend some time away with your loved ones you will be in your element. If you are in a long-term union, you might be thinking about starting a family. This will bring a rewarding dimension to your relationship. Single? You can count on a practical and creative person to bring a new direction to your life.

**Leo (July24/Aug23)** A friend is impatient or even slightly jealous of the time you are spending with others. Use your imagination to find ways to break out of any daily routine, group connection or friendship you no longer enjoy. If you're single, your fantasy life is likely to be rich and imaginative but deep down you long to be in the arms of a lover who will love you forever.

**Virgo (Aug24/Sept23)** You have high expectations from your relationships and long to establish a soul connection with your mate. If you are single, you're in search of your dream lover and you are convinced you will know in your heart, when you find them. If you are already half of a duo, a strong emotional attachment is now developing. A serious romantic partnership will provide the stable future you currently long for and dream of.

**Libra (Sept24/Oct23)** Someone has a big impact on your life and equally your future. You've always sensed this person would either be the make or break of you and it could seem, this July, as if you are right. Your mood, outlook and happiness all depends on the arrangements you are making with your sweetheart. If you are single, everyone senses the chemistry between you and it seems inevitable that before too long you will be a couple.

**Scorpio (Oct24/Nov22)** You love to learn from your friendships and from travel; if you can combine both, expect this to be a month you will always remember. You're feeling adventurous and in the mood to have a lot of fun. Someone you meet who moves to kiss you will be pleasantly surprised by your enthusiastic response. If there's someone you fancy, turn on the charm and with a little persistence you will win their heart!

**Sagittarius (Nov23/Dec21)** A chance meeting with someone like a work colleague could make the July extra special. This is a person you don't normally share your private and social life with. This chance to get to know each other in a less formal setting will make you realise how much you have in common. Plan something special as the end of the month has a play-today-work-tomorrow feel to it. Leave non-urgent chores until later in the month when your energy levels will be higher.

**Capricorn (Dec22/Jan20)** If you're single and there is someone you fancy, when it comes to making the first move, you have all sorts of romantic ideas but you can be a bit shy. If you don't want to miss out on this opportunity, why not ask a friend to play matchmaker? Capricorns who already have a partner will find that love is emotional and intense now and you could be sharing some fascinating and almost mystical experiences together.

**Aquarius (Jan21/Feb19)** A close friend or relative will reveal some news that helps ease your mind of a worry you have been secretly harbouring. Over the days ahead, trust your intuition when dealing with those who are closest to you. Don't hold back from revealing your deepest thoughts. Any extra attention you pay to any form of partnership will, by the end of the month, show signs of being well rewarded.

**Pisces (Feb20/Mar20)** Love this July will be fun, upbeat and exciting. Someone you recently met who at first seemed quiet, sensible and practical could turn out to be quite a firecracker. Whether you are at the start of a relationship or in a long-term union, a lover who is passionate and who revels in sensual pleasures as much as you do is likely to be the perfect one for you. If there has been competition in romance, you are giving your heart to the lover who truly deserves it.
