

# DACIA JOGGER

## THE NEW 7-SEATER FAMILY CAR

With the All-New Jogger, Dacia is revamping the family car up to 7-seater and making it accessible to all. A versatile family car, the Dacia Jogger takes the best of each category: the length of an estate, the spaciousness of an MPV, and the looks of an SUV. It is in a class of its own. At an unbeatable price, the Dacia Jogger offers the best price-to-spaciousness ratio and versatility of an all-rounder car. Behind the wheel, the New Dacia Jogger offers the driving sensations expected of a C-segment vehicle. Its 2.90m wheelbase makes it stable and its 16-inch wheels ensure that it sits well on the road. In addition, its rigid body structure makes it robust. On board, the ergonomics, soundproofing and headroom ensure the comfort of all passengers up to the third row. The Dacia Jogger is the ideal family companion for everyday life, but also for those who want to get away from it all and enjoy the great outdoors. As a true Dacia, it offers the essential equipment without compromising on safety and life on board. Available in 5- and 7-seater versions, the Dacia Jogger comes in three trim levels (Essential, Comfort and the Extreme Special Edition) and six body colors: opaque Glacier White or metallic Iron Blue, Terracotta Brown, Slate Grey, Moonstone Grey and Pearl Black. Upon its release, the Dacia Jogger will be available with two engines with 6-speed manual gearbox: the brand-new TCe 110 petrol engine and the ECO-G 100 engine with petrol and LPG bi-fuel. 2023 will see the addition of a hybrid. Already available for order, the Dacia Jogger will arrive in dealerships from March 2022.

### DESIGNED FOR THE GETAWAY FEEL

In rethinking the family car, Dacia sought to respond to the pull of the great outdoors and the wide-open road, but also the adventures of modern family life. With the length of an estate, the spaciousness of an MPV, and the looks of an SUV, the Dacia Jogger is a true getaway vehicle.

### A DYNAMIC PROFILE

The front profile of the Dacia Jogger incorporates a wide grille, unique to the Dacia brand, strong wings that extend the wheels to the four corners of the car, and a sculpted, horizontal bonnet. Its flush wheels and tailboard spoiler provide a dynamic feel. Their dropline emphasizes the rear-wing shoulders giving a wellgrounded feel atop its wheels. The Dacia Jogger has an outdoor feel thanks to the roof rails, strong wheel arches, and high ground clearance (200mm unladen) that suits all road types.
