## Charity presentation for Little Havens Childrens Hospice

Outgoing Captains from Lords Golf & Country Club, Black Notley have recently had the honour and pleasure of being able to present their chosen charities with the results of efforts for all club members in 2009. The Ladies Captain, Amanda Mitchell (Chelmsford) visited the local Diabetes UK offices in Witham and gave them a cheque for £790.31, and wishes to thank all club members for helping to raise this sum, and the good folk at Help for Heroes received a princely sum courtesy of the Seniors Section and John Anderson (Chelmsford). At the Club presentation evening, the club had an honoured guest, Leanne Overett, from Little Havens Children's Hospice, who gave the club an excellent insight into the wonderful work they do with the children and their families. Following which Leanne accepted a whopping cheque for £3419.84, from outgoing Club Captain Phil Redhead (Great Notley) following which Phil applauded all the efforts of club members during his club captaincy. Phil stated, "It is an honour to lead a club as Captain for a year, and to also know that you have had such a significant impact on the lives of others for this privilege is a wonderful feeling". Phil, and new club Captain Brendan Pinn (Maldon), are also continuing their charitable efforts by leading out a team of 8 Lords Notley members on July 1st, in attempting to play 4 rounds of golf in one day all in the name of MacMillan Cancer Research. This feat will see them playing 72 holes of golf from 5am through to 9pm, and in what looks like blistering heat of the Essex summer. Wish us luck!

Leanne Overett & Phil Redhead

RANGE COOKERS – STOVES – FIRES

*Sustainable heating...a greener alternative!*  
*Looking for a renewable way to heat your home?*  
*Upgrading your fireplace?*  
*Enjoy the pleasure of authentic range cooking?*

FOR ALL YOUR HOME COOKING, HEATING AND HOT WATER NEEDS

At Trowmans, we are here to help and, as a family business, we pride ourselves on offering the best possible service to all our customers, from initial advice regarding the selection of an appropriate appliance, right through to installation and aftercare.

As well as caring for our customers, we also endeavour to care for the environment. For this reason we actively promote the use of wood as an energy source. It is a non-fossilised, sustainable natural product and is one of the most CO<sup>2</sup> neutral heating fuels.
